ADDITION OF TWO NUMBERS

Date: 05/10/23

Aim:

to write a PL/SQL program to find addition of two numbers.

program:

~~set serveroutput on;~~

declare

x integer;

y integer;

z integer;

begin

x := 12;

y := 15;

z := x + y;

dbms_output.put_line('The sum of 2 no
is "||z)');

end;

~~set serveroutput on;~~

/

Result:

thus the program has been executed and verified successfully.

Output :

Enter value for x: 4

old 6 : x := 2x;

new 6 : x := 4;

Enter value for y: 6

old 7 : y := 2y;

new 7 : y := 6;

The sum of 2 no is = 10

PL/SQL procedure successfully completed.

o/p verified.
