

## INSERTION SORT

### **PROGRAM CODING:**

```
#include<stdio.h>
#include<conio.h>
int main()
{
int i,j,count,temp,number[25];
printf("How many numbers u are going to enter?:");
scanf("%d",&count);
printf(("Enter %d elements:",count);
for(i=0;i<count;i++)
{
scanf("%d",&number[i]);
}
for(i=1;i<count;i++)
{
temp=number[i];
j=j-1;
while((temp<number[j])&&(j>=0))
{
number[j+1]=number[j];
j=j-1;
}
number[j+1]=temp;
}
printf("Order of sorted elements:");
for(i=0;i<count;i++)
{
printf("%d",number[i]);
```

```
}  
return 0;  
}
```
