

INSERTION SORT

PROGRAM CODING:

```
#include<stdio.h>
#include<conio.h>

int main()
{
    int i,j,count,temp,number[25];
    printf("How many numbers u are going to enter?:");
    scanf("%d",&count);
    printf(("Enter %d elements:",count);
    for(i=0;i<count;i++)
    {
        scanf("%d",&number[i]);
    }
    for(i=1;i<count;i++)
    {
        temp=number[i];
        j=j-1;
        while((temp<number[j])&&(j>=0))
        {
            number[j+1]=number[j];
            j=j-1;
        }
        number[j+1]=temp;
    }
    printf("Order of sorted elements:");
    for(i=0;i<count;i++)
    {
        printf("%d",number[i]);
```

```
}  
return 0;  
}
```
